Did You Know?

The Medicare Telehealth Enhancement Act of 2005 is currently being considered by the house and senate. Some of the features of this bill include:

- ↳ Removal of geographic restrictions
- ↳ Expansion of the types of practitioners eligible to provide telemedicine services.
- ↳ Facilitation of the adoption of multi state provider licenses.

Telemedicine Making a Difference

"My daughter is a very private child and doesn't like anyone touching her, and she did well with the telemedicine cameras."

Counting the Consults

We have
facilitated 678
cases

And 193 live
interactive
consultations

Riley Urology Connects with Terre Haute

Nurse Practitioners Susan Eley from the Landsbaum Center, and Shelly King from Riley Hospital will link to provide a Teleurology clinic.

"Telemedicine is an exciting addition to the clinical services available to patients in Terre Haute and surrounding counties. Locating this clinic at The Landsbaum Center for Health Education improves access to expert clinicians in pediatric urology that would alternatively require the patient's family to drive a greater distance. Working collaboratively with Riley Children's Hospital ensures confidence, security, and integrity for the patient and their family."

Susan Eley, PhD, APN, BC

Susan is currently an Assistant Professor at the Indiana State University College of Nursing and a Board Certified Family Nurse Practitioner.

"There has been such positive feedback from patients and families in Evansville and the southern part of the state. We are very excited to offer this to the patients in Terre Haute and surrounding area as well."

Shelly King, NP, MSN, CPNP

Shelly is a certified pediatric nurse practitioner and has worked at Riley Hospital for Children for 17 years.
